

I listen to K-Love on 88.9 FM in Wilmington NC. I do not want this station to be replaced by LPFM station.

As a local resident of the community, K-love serves my family with music a programming that is consistent with our values and safe for my children to hear.

If K-love were to be replaced by a LPFM broadcaster, the local community would be very negatively affected by the loss of K-Love programming content.

I believe K-love serves the public interest by providing quality music, promoting values that enrich our community.
